

K40900BX
(VW-096,01M 1989-98)
(W/O PISTONS)

KIT BENEFITS

OUR KIT CONTAINS:

1. All OEM comparable materials—paper and rubber components.
2. Viton®, totally rubber-coated Front Pump M/C seal to correct the common leak condition of the OEM silicone seal.
3. Special aftermarket design solenoid gasket/washers to correct cross-leaks in solenoid to valve body area. No gaskets exist from OEM.
4. Case plug Viton® orings to cover 1998-up Beetle (01M) applications.
5. 3 pcs. 1/4", 2 pcs. 5/16" steel valve body check balls.
6. Early filter seal, late filter grommet.
7. Comprehensive sub packaging to help builder easily locate components.
8. Forward Clutch Drum centering clips, both early and late, which commonly break and/or melt.
9. Pump to K-2 Drum nylon thrust washer.

Note: We also carry K40900B (096 1989-12/94) and K40900L (01M 1/95-98) with OEM Molded Clutch Pistons as well as Flange Shaft Covers.
