Precision International Recognized as a 2016 Supplier of the Year Winner

Third Consecutive Year Precision International Wins Prestigious Award

Yaphank NY, April 4, 2017—

For the third consecutive year Precision International was named a GM Supplier of the Year by General Motors during its 25th annual Supplier of the Year awards ceremony held Friday, March 31 in Orlando, Florida.

GM recognized 118 of its best suppliers from 15 countries that have consistently exceeded GM's expectations, created outstanding value or brought new innovations to the company. The announcement represented the most suppliers GM has recognized since debuting the Supplier of the Year event in 1992.

"We are focused on building positive supplier relationships, bringing new, customer-centric innovations to GM and being the OEM of choice among suppliers," said Steve Kiefer, GM Vice President, Global Purchasing and Supply Chain. "The companies we recognize tonight not only have brought innovation, they delivered it with the quality our customers deserve."

More than half of the suppliers are repeat winners from 2015.

Winning suppliers were chosen by a global team of GM purchasing, engineering, quality, manufacturing and logistics executives and

selected based on performance criteria in Product Purchasing, Indirect Purchasing, Customer Care and Aftersales.

“Precision International is committed to providing our clients with the very best transmission kits, technical support and follow up services possible,” said Precision International VP, General Manager Frank Miller. “This is the third year in a row we have received this honor and everyone at Precision International is thrilled to be recognized by GM for our efforts.”

Precision International is an ISO 9001 certified, worldwide supplier of quality products for import and domestic automatic transmissions, and is dedicated to providing the most up-to-date information available in the industry today.
