TECH TIPS TO HELP YOU AT THE SHOP BENCH

the problem solvers

4R70W, 4R75E/W BROKEN RETAINER CLIP

The Overdrive Servo piston Retainer Clip often breaks and the transmission arrives at the shop with this condition, (usually at one of the ends). An upgraded clip made of a hardened 1040 steel has been made to reduce this problem and improve the durability and longevity of the clip. This part has now been added to our kits, PI# 37384.

Precision International is a worldwide supplier of quality products for import and domestic automatic transmissions. As well as supplying an extensive aftermarket customer base, we also provide product to Original Equipment Manufacturers. Precision International is dedicated to providing the most up-to-date information available in the industry today.
