AX4S BROKEN LOW/INTERMEDIATE SERVO RETAINER CLIP

As per feedback of rebuilders when we've visited transmission shops, the Low/Intermediate Servo Retainer Clip often is broken or lost upon vehicle's arrival into the shop. Using an upgraded clip made of hardened 1040 steel helps to improve the durability and life. The clip is available for order using the part number PI# 59995.

Precision International is a worldwide supplier of quality products for import and domestic automatic transmissions. As well as supplying an extensive aftermarket customer base, we also provide product to Original Equipment Manufacturers. Precision International is dedicated to providing the most up-to-date information available in the industry today.
