DAMAGED BAND STRUT RETAINER

The Band Strut plastic retainer typically becomes brittle and can easily crumble at disassembly or assembly of the bands. New plastic retainers have been added to all above kits and should be used on the rebuilds. PI # 56582 (2 per unit)

Precision International is a worldwide supplier of quality products for import and domestic automatic transmissions. As well as supplying an extensive aftermarket customer base, we also provide product to Original Equipment Manufacturers. Precision International is dedicated to providing the most up-to-date information available in the industry today.
